

Choice grid for S6 manual

Type of subjects:

Core subjects

Basic courses <i>Mandatory</i>	Options <i>4 periods</i>	Advanced courses <i>3 periods</i>	Complementary courses <i>2 periods</i>
--	------------------------------------	---	--

General rules about subject choices in S6

- **Total: min 31 ≤ Periods ≤ max 35**
The limit of 35 periods may be exceeded, up to a maximum of 36 periods. If this occurs, you must request a derogation from school management.
- **Core subjects** = Basic + options + advanced: **Min 29** periods
(= all subjects without complementary subjects)
- **4 periods option:** min 2 ≤ Options ≤ max 4
Tip: 3 options give more flexibility for the BAC examination

Key to understand the choice grid:

- Each line on the grid means one period in the timetable. **Therefore, if two courses are on the same line, they are mutually exclusive.**
- All abbreviations are explained at the end of the document and grid.
- A course is a **complete unit**: if you choose one, you must take all its periods. For example, if it is a four-period course, you cannot take only two or three periods of it.

How to fill the grid?

You can circle or highlight electronically or on paper (and then scan the document). Either way is fine as long as you send me the grid afterwards.

- L1 (line 1 to 4): it is your language section (*except if you are an Estonian or Latvian SWALS student*)
- L2 (line 5 to 7): you can choose between German (DE), English (EN), French (FR) and Spanish (ES). *if you are an Estonian or Latvian SWALS student, this is the language of the section you are joining in)*
- REL/MOR (line 10): you have to specify if you choose morale (= ethics) or a religion (Catholic, Islamic, Judaic, Orthodox, Protestant)
- History (HI) and Geography (GE) (line 14 to 21): you must choose one course of each (HI2 or HI4 and GE2 or GE4)
- Philosophy (PH): you must choose one course: PH2 (line 8 and 9) or PH4
- Sciences: you must choose at least one science: Biology4 (BI4), Chemistry (CHI), Physics (PHY) or Science, Technology and Society (STS)
- And then you can choose other options and/or an advanced course and/or a complementary course...
 - following the general rules explained above and
 - leaving two periods available for the EP (Physical Education) course

COLOURS and ABBREVIATIONS

Obligatory course		Complementary course	STS	Science, Technology, Society; Obligatory if <u>not</u> chosen BI4, CHI and/or PHY
GE2	Geography 2 periods, or	HDA		History of Art
GE4	Geography 4 periods (option)	LAR		Infography
HI2	History 2 periods, or	LBI		Lab BIO
HI4	History 4 periods (option)	LCH		Lab CHI
PH2	Philosophy 2 periods, or	LPH		Lab PHY
PH4	Philosophy 4 periods (option)	SCP		Political science
MA3	Mathematics 3 periods, or	SOC		Sociology
MA5	Mathematics 5 periods	SPO		Sports extra
MAA	Advanced course	THE		Theater
L2A	Mathematics advanced	BI4		Options
	L2 advanced	CHI		Biology 4 periods
		PHY		Chemistry
		AR4		Physics
				Art 4 periods
